# Nightly Reading Synopsis

Use this sheet to organize your thoughts about the reading you do at home each week. Your notes will help you analyze the text and become a more active and therefore better reader. It will also help to prepare you to create a detailed and thoughtful review or project based on your book.

A Plot Diagram shows you how the author organized the story. There are 5 main elements of plot described in Figure 1. After reading each night, make a mark (●) on the empty Plot Diagram below to show where you think you might be in the story, and label it with the date. You can refer to your synopsis notes made on that date which should describe the actual events.
